RoHS Exemptions Evaluation
Öko-Institut e.V.
Institute for Applied Ecology

By email to rohs.exemptions@oeko.de

Dear Sirs,

I refer to the response provided on Thursday 27th October 2015 by Nanoco Technologies Ltd, regarding preparation for the forthcoming public consultation on CdQD exemptions.

As you know, Dow Electronic Materials is working together with Nanoco Technologies in the sale, marketing and manufacturing of cadmium-free quantum dots for display applications. We would like to advise that we endorse the Nanoco response of 27th October 2015. Together with Nanoco, we see no justification to exempt Cd-based QDs for displays or lighting products under RoHS.

Please do not hesitate to contact me directly if you require any further information.

Yours sincerely

Howard Chase
