

European Semiconductor Industry Association

ESIA submission to Öko-Institute Stakeholder Consultation on Diantimony Trioxide - RoHS Substances Study

15 June 2018

The European Semiconductor Industry Association (ESIA) endorses the response submitted by International Antimony Association (i2a) to the 1st Stakeholder Consultation Questionnaire for diantimony trioxide (CAS 1309-64-4; EC 215-175-0) (15 June 2018).

ESIA kindly asks Öko-Institut to take good notice of the detailed information provided in the International Antimony Association's (i2a) response to the consultation questions on the use of diantimony trioxide (ATO) in electric and electronic equipment (EEE) in scope of the RoHS Directive

About ESIA

The European Semiconductor Industry Association (ESIA) is the voice of the Semiconductor Industry in Europe. Its mission is to represent and promote the common interests of the Europe-based semiconductor industry towards the European Institutions and stakeholders in order to ensure a sustainable business environment and foster its global competitiveness. As a provider of key enabling technologies the industry creates innovative solutions for industrial development, contributing to economic growth and responding to major societal challenges. Being ranked as the most R&D intensive sector by the European Commission, the European Semiconductor ecosystem supports approx. 200.000 jobs directly and up to 1.000.000 induced jobs in systems, applications and services in Europe. Overall, micro- and nano-electronics enable the generation of at least 10% of GDP in Europe and the world.

ESIA is an industry association under the EECA umbrella. EECA is registered in the EU Transparency Registry: 22092908193-23

Contact details for Oko-Institute Stakeholder Consultation as requested.
