Contribution to Stakeholder consultations under RoHS 2 (Pack 15)
Indium phosphide (CAS Number: 22398-80-7)

Dear Oeko-Institute team,

On behalf of OSRAM GmbH, Munich and OSRAM Opto Semiconductor GmbH, Regensburg I would like to submit a contribution to the stakeholder consultation under RoHS 2 (Pack 15) on the assessment of Indium Phosphide. We appreciate and support the result of your analysis not to recommend to include InP in Annex II of the RoHS Directive.

Although InP is currently not used in products produced and marketed by OSRAM we would like to additionally comment and answer to the content of the dossier regarding the use of InP in display technologies as well as to perspectives of the use of InP in solid state lighting. We try to answer the questions to the best of our knowledge and are available for any further questions.

In addition, being a member company, we fully support the contribution made and contributed by IMAT e.V. to the 2nd Stakeholder consultation on report No3 dated 25/09/2019 named "ROHS Annex II Dossier for Indium phosphide which is going beyond lighting and displays.

Best regards

Dr. Dirk Toebben

Senior Director
Head of Environmental Protection, Health & Safety
OSRAM GmbH
