Wichtigkeit: Hoch
Kategorien: Rote Kategorie; Birte to do

Dear Ladies and Gentlemen,

thank you for the possibility to provide comments on the drafts of the substance inventory and the first dossiers of the substance review.

We welcome the recommendation not to include beryllium and indium phosphide in Annex II of RoHS.

In the appendix you will also find our contribution to the substance inventory, which we have, as recommended, limited to the "Overall priority Group I" substances.

We would ask you to also follow the notes in the comments within the document.

Please don't hesitate to contact us in case of any questions.

Mit freundlichen Grüßen/Kind regards

Kirsten Metz
