Stakeholder consultation on exemption requests evaluation under Directive 2011/65/EU_Renewal exemption: 6(a)

Dear Mrs. Baron,

We appreciate the opportunity to participate in the stakeholder consultation on exemption requests evaluation under Directive 2011/65/EU within the framework of the Study to assess RoHS exemptions.

We confirm the arguments mentioned in the exemption requests of the “Umbrella Project” for the existing Exemption 6(a) for lead as an alloying element in steel for machining purposes and in galvanised steel containing up to 0,35 % lead by weight

Best regards

Mario Crnjak
